

# UNSTILLBARES VERLANGEN

---

Insatiable desire is leading us to absurdity.

Is that a bad thing?

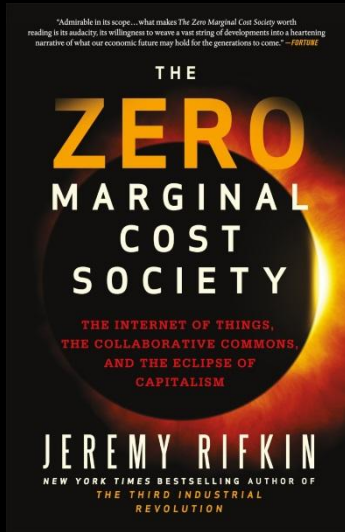

# ABSURDITY IS MOUNTING

1. If you take a statement to its logical extreme, it becomes absurd.
2. Our economic system is focused on the fulfillment of human desire.
3. Human desire is insatiable and unlimited. Trying to fulfill it must become more and more extreme.

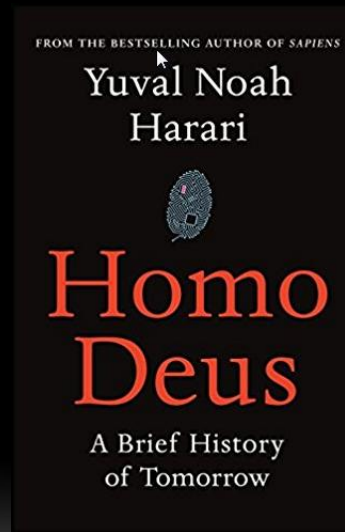

Insatiable desire  
is leading us  
to absurdity.

# THE FUTURE WILL BE INSANE (SOME EXAMPLES)

Everything will  
be free!

We will (try to)  
become gods!

# WHAT SHOULD WE DO?

„Fuck  
yeah!“

BECOME RAGING  
HEDONISTS

„Everybody  
panic!“

LOBOTOMIZE  
OURSELVES

„Techno-Jesus  
will save us!“

VIRTUALIZE  
OUR LIVES
